GOODWILL

September - A month full of promise! Wherever one looks, we notice flowers beginning to show their little faces, and even the temperature is noticeably different. Together with this beauty, we also hope that the nasty winter 'bugs' are a thing of the past. We wish all our residents a happy and healthy Spring and may we all dance with joy!

Maxie van Heerden

Die gedig van 'n Gebed uit Wes-Afrika. Bron: Groot Gebedeboek. (This poem appears in Afrikaans as the essence of the poem will be lost if translated).

VOL VAN GOD SE BLYDSKAP

Ek het vanmôre Vreugde van die lewe
ek dank U vir hierdie nuwe dag
Ek gooi my vreugde in die lug op
-soos voëls
want die nag het weggefladder
en ek verheug my oor die lig
U son het die dou weggebrand van die gras
en die donker uit my hart verdryf
Daarom is die woorde wat vanoggend uit my mond kom
net vreugde en dank
Here ek is vanmôre vrolik
Die voëls en die engele sing,
en ek ook:
Die heelal staan bakhand vir U genade
en my hart ook
Die son skyn op my lyf en ek dank U daarvoor
Die branders breek op die strand
dankie daarvoor
Here ek verlustig my in U skepping
Want U is daarin en daarbo en daaragter
en ook in my
Ek is gelukkig Here
bly
bly
Vol van blydskap
Here ek gooi my vreugde soos voëls in die lug op
'n Nuwe dag gaan singend oop;
Tjirp en kwetter van U liefde
U genade skitter in elke uur
Halleluja, Here!

POTPOURRI HOME & GARDENING CLUB

It's glorious spring, winter is over, and our gardens need us!

There is something in the air - you feel it, smell it, and you see it all around because everything is waking up! August winds which brought with them a lot of dust and leaves, should be a thing of the past soon. Luckily, we can use these leaves by digging them into our garden.

By now, your rose pruning should be done and dusted, because in October we will be rewarded with beautiful roses and the wonderful scent emanating from them. It is important to water roses now that the weather is warming up. Water them deeply twice a week and fertilize by mid-month using Vigorosa. Protect new growth from aphids, thrips and powdery mildew through the soil and stem. Spray with Koinor or Rose Protector.

Keep an eye out for Lily Borers that like to invade plants like Clivias, Arum Lilies and Agapanthus. These can cause major damage to your plants, even causing some to die. This yellow-black, striped worm feeds and tunnels deep into the heart of the plant. Conspicuous holes and tunnel marks on the leaves indicate their presence. Remove them by hand and squash them. They are usually active from September to April.

FEED NOW: If you haven't started yet, fertilize your garden now, by applying the appropriate fertilizers. Keep granular fertilizers away from plant stems and water well after application.

Use snail bait for slugs and snails.

When tall growing perennials re-emerge after being dormant in winter, pinch out the main stems when they are \pm 20 cm tall. This will increase their flowering power.

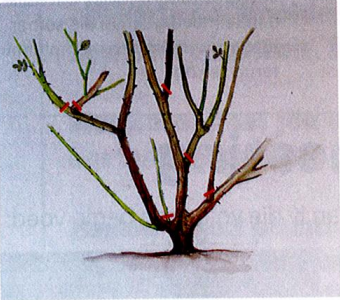

Replace or supplement pebbles and gravel between pavers in your garden as dust and mud spoils the effect.

By the end of September, parts of the plants affected by frost damage can be removed

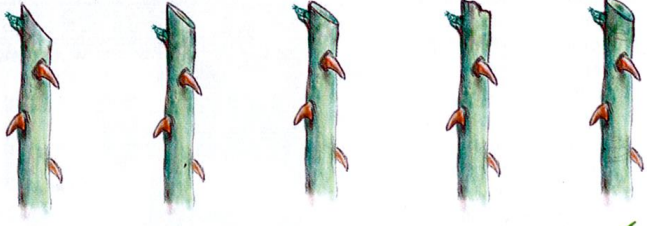

Visit your nursery and see what is new. Begonias and Impatiens can be planted now.

There is a lot to keep us busy in the garden. Enjoy your garden, and let's hope that it rains soon.

Garden greetings - Marie Goosen

CARE TEAM

We have had a very busy time of late, so the cold weather we experienced was overcome by knitting frantically for the elderly and children to assist them in keeping warm.

We donated blankets, scarves, gloves, bed socks and beanies to Luipaardsvlei Old Age Home and the Roodepoort Alzheimer's section.

To Cross Connexion and Jollige Jakkies we donated clothes, blankets, beanies as well as twelve cans of paint for which they are very grateful.

At present, we are busy working on the following projects:

- Beanies for newborn babies;
- Gloves and blankets of various sizes for children and adult cancer patients;
- Bags in which to carry your cell phone and panic button. These are available at R30,00 from the office;
- Blanket squares.

We meet every Thursday from 09:00 to 11:00. Please contact me if you wish to know more about our group or have any queries.

Thank you so much to everyone who has donated towards our projects. It is greatly appreciated.

TAPHUIS

We are planning an **October Fest**, complete with “Oompah” music and other South African music and songs on the **25th of October** from 16:30 until the last person leaves!

We will be selling German fare – German sausages on rolls as well as Eisbein. The Eisbein will only be sold to those who have pre-ordered it as they cost quite a bit more than German sausages.

In order for me to go ahead with the event, and to order the Eisbein, please let me know **no later than 15th of SEPTEMBER**, if you wish to attend. **WhatsApp me on 083 379 3703**

The normal liquor and beer, as well as German beer, will be on sale.

SAFETY

It's been almost ten months since Panorama experienced a break-in, but I can assure you, that in complexes outside of Panorama, it's a completely different story. The modus operandi remains the same, yet no one has been able to determine how the criminals bypass the electric fences. The theory that guards are involved does not hold water, as in some complexes there are no guards and yet they gain access to the complex without damaging the electric fence.

We recently had another attempted break-in at Panorama, but, in my estimation, this was an opportunistic crime. The reason for me thinking so is that the resident had been away for about a week, and the garden fork which was in the back garden, was used to try and gain access via the sliding door. Well done to the resident who locked her door and inserted the bolt on the sliding door which made it impossible to gain entry by lifting the door off its rails. My opinion is that it was someone, who knew the resident wasn't home, and took a chance.

Most sliding doors in Panorama are already fitted with such a 'bolt' so please ensure that you use it to prevent the door from being lifted from its rails.

The CPF (Community Police Forum) recommends that, should you have dark areas around your home, you consider installing security lights that are activated by movement. I installed one at my sliding door after my home was broken into and it is extremely effective. This light can be connected to the mains, or even install one with its own solar panel.

A problem that is occurring now and poses far worse danger to older residents, is the transport of residents for a fee. If a vehicle is used to transport people or goods for a fee, the Road Traffic Act stipulates the following:

1. The vehicle must be registered as such, and must undergo an annual roadworthy test and then, together with the regular licence, must obtain an "Operators Card" to be displayed on the windscreen.
2. The driver of that vehicle must apply for a "Public Driving Permit" PDP (Public Driving Permit) issued by the Department of Transport at the licensing office, as well as a Police Clearance certificate. There are three categories namely goods, dangerous goods and passengers. For the categories passengers and dangerous goods, the law also requires a medical certificate stating that the driver is in good physical and mental health.
3. In order to protect him or herself, as well as the passengers, the driver must also be insured. If you as a driver are involved in an accident, and the passenger is injured or worse still, dies, and negligence on your part can be proved, prepare yourself for a major civil claim.

You, as passenger, as well as your family, have the right, before making use of the services of these persons, to insist on seeing the driver's PDP (Public Driving Permit) as well as proof that the person has insurance covering him in case an accident.

If you are considering transporting people for a fee, make sure that you comply with the law. and most importantly, that you are satisfied that you are healthy enough and can safely carry passengers, as far as possible, at all times.

Until we chat again - Panorama Greetings

Piet Marais (011) 954 1561 / 083 379 3703

HYDRO-THERAPY

We would like to resume hydrotherapy exercise classes from the 9th of September. Reese will offer the classes on Mondays at 14:00 in the pool at the recreation centre.

The cost per session is R200,00 for the group. Thus, the cost per person will depend on the number of people attending.

Interested parties can contact **Anne Baker on 066 340 7613.**

Hydrotherapy Principle 4

Hydrotherapy has **reflexive** as well as physiological effects on the body

FROM GOOGLE

Nervous system reaction to the treatment

Reflex reaction due to a segmental connection

Both the skin and affected viscera receive sensory innervation from the same segment of the spinal cord

Heat applied to the abdomen will decrease the activity of the intestines

FACTS OF LIFE

- I grew up in government housing and never once questioned my parents' income, it was never a discussion.
- We didn't eat a lot of takeaways because it was considered a treat, not a food group.
- We ate homemade meals that consisted of meat, potatoes and vegetables - (which was not an optional choice). No vegetables, no pudding!!
- We grew up in a time when we mowed lawns, pulled out weeds, washed the car, piled firewood, hung up the laundry, helped neighbours with chores to earn pocket money.
- By no means did we get everything we wanted.
- We used to go outside a lot to play, kick a ball, play cricket, jump, ride a bike, run with friends, play hide and seek, climb a tree, look for frogs and tadpoles, or go swimming. We rarely just sat inside.
- Bottled water was unheard of.
- If we had a coke, it was in a glass bottle and we didn't throw the bottle away when it was empty. We kept it and exchanged it back at the store for a bag of sweets.
- After school, we came home and did homework and chores, before going outside or having friends.
- We would ride our bikes for hours.
- We had to tell our parents where we were going, who we were going with, and that we would be home when the streetlights came on!
- You **LEARNED** from your parents instead of disrespecting them and treating them as if they knew absolutely nothing.

- What they said was LAW and you didn't question it, because you better knew better than to do this!
- We were careful about what we said around our elders because we knew if we were rude or ill-mannered towards any grown-up, we would be in big trouble. It's not called abuse, it's called discipline!
- We held doors open, carried the shopping, and gave up our seat for an older person without being asked.
- You didn't hear profanity on the radio in songs or TV.
- "Please and thank you", was part of our daily vocabulary!
- And we were never ever ever bored.
